## Xylophone

designed by Vicki Davidson, NC

Level: Beginner

### Materials for Xylophone:

- 1 lanyard hook or keyring
- 2 yards of cord
- 131 white mini pony beads
- 74 gray mini pony beads
- 24 mini purple pony beads
- 22 mini blue pony beads
- 20 mini dark green pony beads
- 18 mini light green pony beads
- 16 mini yellow pony beads
- 14 mini orange pony beads
- 12 mini red pony beads
- 10 mini pink pony beads

\*Another idea: use the glitter beads or the silver beads instead of the colored beads to make it look like a real xylophone.

### Special Note:

This is a wide pattern and will probably need reinforcing. For instructions on how to do this, see the [Buzz Lightyear](#) directions.

### Materials for Two Sticks:

- 50 mini black pony beads
- 14 mini blue pony beads

### Special Instructions:

Attach the two sticks to the xylophone with a ribbon to keep it together as a set.
